

Electronics Semiconductor Electrical Laminates Product Portfolio

APPLICATION		PRODUCT	BENEFITS								
PCB assembly (Printed Circuit Board)	CCL (Copper Clad Laminate)		Improved solubility in organic solvent	Enhanced UV blocking	Enhanced fluorescence for optical inspections	Enhanced flame retardancy	Flame retardancy especially in halogen free systems	Flexible in various formulations	Reduced color	Good adhesion to metals	Formaldehyde Free

•	•	Durite™ SD-1817				•	•	•	•	•	
•	•	Durite™ SD-357B	•	•	•	•					•

- All products provide:**
- Improved moisture resistance
 - Low dielectric constant
 - High temperature stability
